Photoshop Training Course

Retouch, cut out and compose your images like a professional

Duration: 3 days | Hours: 21 h

Remote • Sessions guaranteed from 1 registrant • 60% hands-on practice

DESCRIPTION

This Photoshop training teaches you to retouch, correct and compose your images professionally. Over three highly practical days, you get to grips with the interface, layers and selections, then progress to advanced retouching, cut-outs and photomontage. By the end, you are able to independently produce professional visuals for both web and print.

LEARNING OBJECTIVES

By the end of this training course, participants will be able to:

- Get to grips with the Photoshop interface and workspace
- Work non-destructively with layers and masks
- Make precise selections and cut-outs
- Correct light, colours and defects
- Compose believable photomontages
- Export your visuals in the right formats

PREREQUISITES

- Be comfortable with the computing environment
- Experience with images is a plus, but not required

TARGET AUDIENCE

- Graphic designers, photographers, community managers, communication officers and anyone wishing to retouch and compose their images with Photoshop.

DETAILED PROGRAMME

The training alternates between theoretical input and hands-on practice (approximately 60% of the time). The modules are built around practical exercises based on real-world use cases.

- Interface, documents and workspace
- Cropping, image size and resolution
- Formats and colour modes
- Navigation and organisation

Module 2 — Layers, masks and selections

- Working non-destructively with layers
- Blending and clipping masks
- Selection tools and edge refinement
- Cutting out a subject

Module 3 — Retouching and colour correction

- Exposure and colour correction
- Localised retouching (clone stamp, healing brush, generative fill)

- Adjustment layers and smart filters
- Sharpening and cleaning up an image

Module 4 — Photomontage and composition

- Combining several images
- Blending modes and light/shadow integration
- Effects, layer styles and text
- Colour consistency

Module 5 — Finalisation and export

- Preparing a file for web and print
- Exporting in the right formats and resolutions
- Automating recurring tasks
- Good archiving practices

COURSE HIGHLIGHTS

- Focused on practice with around 60% guided exercises
- Option to work on your own files or projects
- Small group of 1 to 3 participants for personalised support
- Led by an expert trainer
- Certificate of completion provided

TEACHING METHODS

Format and Delivery

The training is delivered remotely via an interactive virtual classroom. It can also be delivered on-site, with content customised to match the needs of your professional project. The theory/practice split is approximately 40%/60%.

MFE-IT Ultra-Personalised Format

Each session accommodates between 1 and 3 participants, ensuring highly individualised support. A preliminary interview allows us to tailor the content to each participant's profile. Inter-company sessions are guaranteed from just 1 registrant (no risk of postponement except in cases of force majeure).

Skills Assessment

Throughout the training, the trainer assesses participant progress through multiple-choice questions, role-playing exercises and hands-on work. At the end, a certificate of achievement is issued to each participant.

Post-Training Support

For one month following the training, each participant can contact MFE-IT trainers with questions about implementing acquired knowledge. A response is provided by email or telephone within 48 working hours.

Accessibility

MFE-IT is committed to welcoming people with disabilities. Contact: contact@mfe-it.com.
